📌 Covid-19, we're coming for you! 💪

As many of you may have seen, Trowbridge Primary Care Network (Trowbridge Health Centre and Lovemead Group Practice) has been working to get Covid Vaccines delivered to the most vulnerable people in our community. As part of this amazing effort, the PCN, working from the surgery at Wingfield Road, has given over 1100 doses of Covid vaccine to our over 80s as well as health and social care teams. As the supply of vaccine is growing, we will be working through the priority groups and contacting patients when their turn arises. Please do not call us - we will contact you with your invitation.

In addition to this, not wasting any time, this week we are getting to work vaccinating our Care Homes - administering hundreds of doses. We are dedicated to getting all our Care Home residents protected.

Trowbridge Primary Care Network continues to play a vital role in this vaccination effort. What can you do to help? Whilst the practices remain open and are, as always, here to help anyone who needs it at this time, we also need to free up time for the vaccination program. Please be patient with us if there is a longer wait to deal with routine matters and try and call us only if you have a more urgent need.

Many thanks to everyone who is adhering to the lock-down guidance. Your efforts are going to ensure that we all stay safe. Keep it up, Trowbridge!

Together, we will beat covid-19 and get the vaccination to all who need it!

Stay safe. Stay well. Stay positive. 🙌
